NOW YOU CAN MOUNT ANY INTERACTIVE WHITEBOARD  
 IN FRONT OF YOUR EXISTING CHALK OR DRY ERASE BOARD!  
 SIMPLY **SLIDE IT OVER** WHEN NOT IN USE!

## Introducing the first track mount system for interactive whiteboards!

Slide effortlessly  
 into your projected  
 image space and  
 back out of the way!

Today's schools face difficult decisions when mounting their newly purchased interactive whiteboard technology. Now, thanks to **Diversitrack**, no more agonizing over whether to drill into your existing dry erase board! **Diversitrack** is the first sliding track mount system of its kind for interactive whiteboards supporting the industry's top brands.

Not only can you now mount your interactive whiteboard in front of your existing chalk or dry erase board, you can also **move it aside effortlessly when not in use.**

- Retain your existing dry erase space
- Slide it to the side when not in use
- Clears a standard chalk tray
- Height adjustable
- Stops in its calibrated position
- Perfect for new or existing construction
- Professionally manufactured and finished in Oyster White neutral powder coat
- Simple to assemble and install

**Track Technology Systems, Inc.** accepts school purchase orders. Use our contact form on the website to request a formal quote or ask a question.

## TESTIMONIALS:

"The teachers are gaga over the tracks! The problem has always been giving up the board space to accommodate the interactive board. This solves that problem." - **Shirley G., Indianapolis Area School**

---

"Just spoke with our customer! He is crazy about this thing!! He said he was trying to figure out what he could do to give them more space on the white board and then we shipped Diversitrack as the solution...Awesome product!!" - **Diversitrack Dealer in Georgia**

---

"The Diversitrack sets you sent went up quickly and easily! I've had a couple of teachers come in already, see the SmartBoards mounted and say that they want their boards mounted like that as well! Please take this email as a glowing testimonial. I still think they are the best thing since sliced bread!" - **Bob Krieger, Technology Director, Stuart Hall School for Boys, New Orleans, LA**

---

"The mounting system is certainly classroom friendly as it affords space-savings benefits as well as convenience. I can readily slide the board several feet in either direction to access additional material that is posted underneath or to make room for other equipment or activities that might need that floor spot. Also, the design which does not have legs/frame pieces touching the floor adds to the cleanliness and aesthetics of the room. And besides its many mount advantages; the whiteboard itself is a tremendous classroom tool. Thanks so much for installing the interactive whiteboard in my classroom." - **Rosalind E. Harrell, Switzerland County High School, Vevay, Indiana**

---

"I am extremely pleased with the chalkboard mounting system for my Interactive Whiteboard. It gives me full use of the whiteboard and chalkboard. I continue to use both daily. I project many science sites from the Internet on my white board. I use the white board constantly in all science classes--AP Environmental Science and several levels of chemistry. Because I teach a number of different classes, I often have information on parts of the chalkboard regarding schedule or assignments and then use the whiteboard for lecture notes. I did not have room for a whiteboard stand in my room. The chalkboard mounting system has been an excellent alternative." - **Bonnie F.**

---

"I think that mounting system and the whiteboard themselves are excellent and the ability to move the whiteboard when necessary has been great." - **Sean M.**

---

"I have used a permanent mounting system before. This is a great system, I can use my whiteboard behind better than a permanent system. With permanent you get very little use out of the board behind." - **Leanne R.**

---

"The mounting system has been a wonderful addition to my classroom. I can integrate technology into my lesson plans without giving up floor space." - **Valerie S**
